

MD TAREKUL ISLAM

Frontend Developer

I am a passionate Frontend Developer with a strong interest in creating intuitive and visually appealing user interfaces. Although I am relatively new to the industry, I have strong foundation HTML, CSS, and JavaScript as well as I have been working with react and vue.js. I did few project with vue and react But I learnt lot of core things over framework like pagination or Tabing, autocomplete, Image Griding, slider, filtering search, form validation, component interaction, reponsive design, global state management, API calling etc. now I am letting me focus on reuseable component with vuejs. I am a quick learner and am eager to continue developing my skills and learning new technologies.

EDUCATION

MSC WEB ENGINEER TU CHEMNITZ

10/2021 - Present

Chemnitz, Germany

Courses

- Current trend web enginner
- Advance Managment Database
- Cloud and web Application
- Design of distributed systems
- Software Service Engineer
- Database and Web technology
- XML
- Project: Create NFT for real estate business with BlockChain Tecnology

BSC COMPUTER SCIENCE DAFFODIL INTERNATIONAL UNIVERSITY

04/2015 - 03/2019

DHAKA, BANGLADESH

PERSONAL PROJECTS

E-commerce with React (06/2019 - 10/2019)

- It was my first project with a library. Here i learnt that how to make component, how to pass data component to component, condinational rendering of component, component mount and unmount, state managment with redux. Additionally There were e-commerce features like filter, cart, autocomplete, form validation etc

Booking Hotel or any property During Travel (04/2023 - Present)

- It's a organized and clean project what I am doing right now. as framework i am building at top of nuxt 3 which is combined frontend(vue.js 3) and Backend(Nitro or vite server). It is a good choice as beginner to understand the full stack roadmap. Here I try to use reuseable and clean code, reponsive design, global state managment.

Multiple File Upload (04/2022 - 07/2022)

- This project taught me How to handle file like read or write of asynchronous and synchronise way. how to change file type, download speed control, authorisation mean who can access the file.

SKILLS

JavaScript

TypeScript

Java

Nodejs

Vue.js

Reactjs

Object Orientend Programming

Nuxt

tailwind css

HTML

CSS

MongoDB

Postgresql

API routing

CERTIFICATES

TypeScript from Udemy (11/2022 - 02/2023)

TypeScript is very popular instead of using javascript. Because It is easy to maintain code in terms of big projects and catch error, bug fixing. There are some advance features decorator, generic.
